General Information

A person may obtain a temporary importer, exporter, pollutant, or carrier fuel tax license when the Governor of Florida has declared a state of emergency, or when the President of the United States has declared a major disaster in Florida or in any other state or territory of the United States.

Importer means any person that has met the requirements of section (s.) 206.051, Florida Statutes (F.S.), and is licensed by the Department to import motor fuel or diesel fuel upon which no precollection of tax has occurred, other than through bulk transfer, into this state by common carrier or company-owned trucks.

Exporter means any person who has met the requirements of s. 206.052, F.S., and who is licensed by the Department as an exporter of taxable motor or diesel fuels either from substorage at a bulk facility or direct from a terminal rack to a destination outside the state.

Carrier means every railroad company, pipeline company, water transportation company, private or common carrier, and any other person transporting motor or diesel fuel, casing-head gasoline, natural gasoline, naphtha, or distillate for others, either in interstate or intrastate commerce, to points within Florida, or from a point in Florida to a point outside the state.

Florida Pollutant Importer means any person who imports into or causes to be imported into Florida, taxable pollutants for sale, use, or otherwise.

When a state of emergency is declared in Florida, a person may obtain an importer or carrier fuel tax license to import or transport fuel into this state.

When a major disaster has been declared in any state or territory other than Florida, a person may obtain an exporter or carrier fuel tax license to export or transport fuel to the state or territory where the disaster has been declared.

A temporary license will expire on the last day of the month after the month in which a license is issued.
